

The use of European Health Insurance Card (EHIC) in the Republic of Serbia

Persons from the European Union to whom, in accordance with the regulations in their own country, a European Health Insurance Card has been issued, retain the ability to use this card during their temporary stay in the territory of the Republic of Serbia, provided that the Republic of Serbia has signed the appropriate legal document on the use of the card with that particular country.

The European Health Insurance Card represents an alternate for Form - "Certificate of entitlement to emergency healthcare during a temporary stay in Serbia."

The Republic of Serbia has, so far, signed nine "Arrangements on the use of the European Health Insurance Card in the territory of the Republic of Serbia", while it is expected that similar arrangements with other countries will be signed in the future:
